Jordan Rivera

Senior Full Stack Developer

jordan.rivera@example.com
+1 555-0142
Toronto, Canada

Senior full stack developer with 9 years of experience building web products from database to UI. Expertise in **TypeScript**, **React**, **Node.js**, **PostgreSQL**, **AWS** and **event-driven systems**.

Work Experience

Northwind Logistics - Senior Full Stack Developer March 2022 - Present

- Replaced polling with Kafka carrier events and GraphQL subscriptions, cutting shipment status latency from minutes to under 5 seconds.
- Led the rebuild of the customer tracking app in Next.js and TypeScript with a shared component library used by three teams.
- Reduced p95 API response time from 900 ms to 180 ms with Redis caching and PostgreSQL index tuning.
- Moved eight Node.js services to Amazon EKS with Docker and Terraform, and built GitHub Actions pipelines that took releases from weekly to several times a day.
- Mentored two junior developers through weekly pairing and code review.

Brightpath Health - Full Stack Developer June 2019 - February 2022

- Built the React booking flow and Express APIs that grew online bookings to 60% of all appointments.
- Integrated WebRTC video visits into the patient app, enabling 15,000+ virtual visits in the first year.
- Led a WCAG 2.1 AA accessibility audit and fixed 120+ issues across the patient app.

Pixelcraft Studio - Junior Web Developer July 2017 - May 2019

- Delivered 20+ responsive marketing sites for retail and hospitality clients.
- Built a reusable React reservation widget adopted by five restaurant clients.
